### **Program**

Will McMahan introduced Tam Osborne, Music Director and a Conductor for the Everett Youth Symphony. The Everett Youth Symphony is all about kids. Tam's background is as an educator. He began his career as a music educator turned administrator. He was a high school principal, but always focused on music. His schools were always successful with their WASL scores as a result of the music influence. The age groups they work with include children as young as 5 years old to as old as 21 years old. Their organization includes four orchestras they have a Youth Symphony, that Tam conducts, a Junior Symphony, an Intermezzo Strings group and Prelude Strings group.

Everett Youth Symphony is about providing opportunities for kids. They are communal opportunities. Kids can come with other kids that share a common interest. They can share a joy of learning, a joy of music, a joy of performance and maybe most importantly a joy of recognition from members of the community and their family. Tam believes one of the most important things we do in our community is to recognize kids for the strengths they have and the successes they demonstrate.
